

Become a part of our team!

Chrestos is a statistical health consultancy offering services to the pharmaceutical industry in the area of CRO. In joint projects, we work closely with our customers in our head offices and at our customer's location.

In order to strengthen our team, we are looking for a

Biostatistician (m/f/d)

Your responsibilities

- You will be working in international teams and you will be responsible for expertise in all statistical aspects of your work.
- You will particularly be involved in the planning, programming, documentation and presentation of statistical analyses within the scope of clinical research
- You will be discussing the statistical aspects of your work with experts from related disciplines (i.e. medical science, pharmacokinetics, medical writing) and will be required to present them in a comprehensible manner.
- You will deepen your knowledge continually in the pharmaceutical industry and are basically interested in getting involved in different areas of clinical development.
- You will be actively contributing to your work environment.

Your qualifications

- You have an above-average master's degree in statistics, mathematics, data science or bioinformatics or you have successfully completed your studies in a related field.
- You are interested in statistical analyses in the field of clinical research and you have the statistical knowledge to achieve high-quality results.
- You are able to work in a structured, goal-oriented and independent way.
- You have a high affinity to programming and very good knowledge in SAS or R.
- You have very good written and spoken German and English skills.

Do you have team spirit, humor and an open mind? You want to be part of an ambitious team that works with joy, passion and flexibility? If so, we are looking forward to getting to know you. We give you the opportunity through further training to develop personally and professionally. As part of our internal CHM, we offer you an extensive program of health-promoting measures. At Chrestos you have many opportunities to bring in yourself and your own ideas.
