

Become a part of our team!

Chrestos is a statistical health consultancy offering services to the pharmaceutical industry in the area of CRO. In our projects we work closely with our customers – both in our head offices or at our customer's location.

In order to strengthen our team at the **TU Dortmund** we are looking for a

Statistician (m/f)

Your responsibilities

- You provide support the study planning (study design, developing statistical analysis plans (SAP), (co-) development of study protocols, sample size calculations).
- You are involved in the development of standardized programs for statistical analyses in R and Standard Operating Procedures (SOPs).
- In particular, you will be involved in the planning, execution, documentation and presentation of analyses in the field of clinical research with a focus on Investigator Initiated Trials (IITs).
- You will discuss the statistical aspects of your work with experts in related fields (i.e. medical science, medical writing) and you will be able to present them in a comprehensible manner.
- You actively contribute to the work environment.

Your qualifications

- You come with an above-average masters degree in statistics, data science or mathematics or you completed your studies in a cognate discipline.
- You have a high programming-affinity and very good skills in the programming languages R (or SAS).
- You have very good skills in spoken and written German and English.
- You are interested in statistical research objectives in clinical research and have the statistical knowledge to achieve high-quality results.
- You are able to work in a structured, goal-oriented and independent way.
- It is easy for you to approach people and to integrate them into your work.
- Ideally your major field of study is biometrics / clinical studies and have already gained initial professional experience within the field of clinical research.
- Biological or medical background know-how would be an advantage but not a precondition.

You enjoy programming and have team spirit? You want to be part of an ambitious team that works with joy, passion and flexibility? Then we look forward to getting to know you. In regular trainings and certifications we ensure that you meet all specified requirements and that you develop yourself further on a personal and professional level. As part of our internal BGM, we offer you a varied programme of health-promoting measures. At Chrestos you have many opportunities to express yourself and your ideas.

Please send your detailed and meaningful documents to: kariere@chrestos.de
