

## Become a part of our team!

Chrestos is a statistical health consultancy offering services to the pharmaceutical industry in the area of CRO. In joint projects, we work closely with our customers in our head offices and at our customer's location.

In order to strengthen our team we are looking for a

### R-programmer (m/w/d)

#### Your responsibilities

- As a statistical programmer you will be involved in developing R-programs for the evaluation of clinical studies.
- You will be applying advanced statistical and predictive modelling techniques, including exploratory and confirmatory analysis.
- You will be identifying relevant data and information sources needed for data analysis and using new (digital) data acquisition processes.
- You will be exploring, evaluating, creating and implementing new and emerging analytical processes and tools to improve work processes and research.
- You will be leading programming activities in developing and validating exploratory and interactive data analysis packages (R-shiny, Spotfire, Tableau, Power BI, etc.)
- You will be ensuring that specifications are fulfilled and that the quality of programs and data sets is guaranteed.
- You will be responsible for the outcomes of your programs and constantly check the plausibility of your results while using technical and specified terms.
- You will be validating and documenting analysis programs in accordance with applicable regulations and guidelines.

#### Your qualification

- You have an above-average degree in statistics, mathematics or data science or in a related field (M.Sc. or doctorate).
- You have a high affinity for programming and very good knowledge of the programming language R. You are familiar with R-shiny or Phyton.
- You have preferably up to 3 years work experience.
- You enjoy programming and your programming style is clearly structured and comprehensible.
- You are interested in statistical analysis in the field of clinical research and have the ambition to achieve high quality results.
- You have good written and spoken language skills in German and English.
- You are customer-oriented, communicative and a good team player.

Do you have team spirit, humor and an open mind? You want to be part of an ambitious team that works with joy, passion and flexibility? If so, we are looking forward to getting to know you. We give you the opportunity through further training to develop personally and professionally. As part of our internal CHM, we offer you an extensive program of health-promoting measures. At Chrestos you have many opportunities to bring in yourself and your own ideas.
